# DRONES

Image Source: <http://www.bladehelis.com/Drones/>

WASHINGTON – The U.S. Department of Transportation’s Federal Aviation Administration (FAA) today announced a streamlined and user-friendly web-based aircraft registration process for owners of small unmanned aircraft systems (UAS), **weighing more than 0.55 pounds (250 grams) and less than 55 pounds (approx. 25 kilograms) including payloads such as on-board cameras.**

If you own a drone, you must register it with the Federal Aviation Administration’s Unmanned Aircraft System (UAS) registry. A federal law effective December 21, 2015 requires unmanned aircraft registration, and you are subject to civil and criminal penalties if you do not register.

Registration is a statutory requirement that applies to all aircraft. Under this rule, any owner of a small UAS who has previously operated an unmanned aircraft exclusively as a model aircraft prior to December 21, 2015, must register no later than February 19, 2016. Owners of any other UAS purchased for use as a model aircraft after December 21, 2015 must register before the first flight outdoors. Owners may use either the paper-based process or the new streamlined, web-based system. Owners using the new streamlined web-based system must be at least 13 years old to register.

Owners may register beginning December 21, 2015 through the web-based system at: <http://www.faa.gov/uas/registration/>. Registrants will need to provide their name, home address and e-mail address. Upon completion of the registration process, the web application will generate a Certificate of Aircraft Registration/Proof of Ownership that will include a unique identification number for the UAS owner, which must be marked on the aircraft.

Owners using the model aircraft for hobby or recreation will only have to register once and may use the same identification number for all of their model UAS. The registration is valid for three years.

The normal registration fee is \$5, but in an effort to encourage as many people as possible to register quickly, the FAA is waiving this fee for the first 30 days (from Dec. 21, 2015 to Jan 20, 2016).

## UAS REGISTRATION FAQs

<https://www.faa.gov/uas/registration/faqs/>

### What is the penalty for failing to register?

A. Failure to register an aircraft may result in regulatory and criminal sanctions. The FAA may assess civil penalties up to \$27,500. Criminal penalties include fines of up to \$250,000 and/or imprisonment for up to three years.

### How high is 400 feet?

Typical buildings have floors that are 12-14 feet high. A 30-40 story building would be about 400 feet high. If you lose sight of your unmanned aircraft, it is probably above 400 feet.

### If I don't have a scale and my drone doesn't appear on the list is there another method to tell how much it weighs?

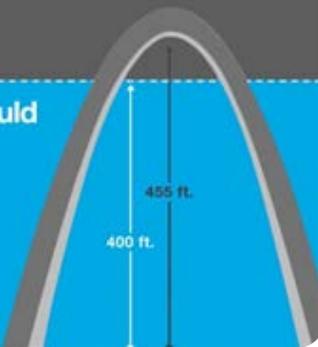

Two sticks of butter weigh 0.5lbs.

### If a drone crashes in my yard what do I do?

Call local law enforcement.

The Winter Springs Police Department is proud to announce that with the New Year comes the SHIELD 360 Program in full swing! Corporal Dave Raney and Corporal Tracy Fugate are now state-certified crime prevention professionals. This means that, upon request, Cpl. Fugate or Cpl. Raney can come to your business or residence and perform a site survey to aid you in the prevention of crime and to evaluate your property for crime risk. Participate in a property survey and receive a SHIELD 360 sticker for you business or residence window. SHIELD 360 is the symbol which will display to all a community unified against crime.

Along with our site surveys, citizens can choose from a wide variety of services that the Winter Springs Police Department provides, many at no cost. We have our "Are you okay?" program, Lock Box program, Fraud Prevention lecture series, Personal Self Defense, and Operation Medicine Cabinet, just to name a few!

Maybe you've seen our truck. Maybe we have spoken to you at Hometown Harvest, National Night Out, or Winter Wonderland. We would like to continue our investment in the community by providing the tools and education to form a 360 degree shield against crime. For more information, don't hesitate to contact the Community Relations Bureau through Cpl. Raney at 407-327-7980 or Cpl. Fugate at 407-327-6561.

### Opportunity Sites:

• Winter Springs offers excellent opportunities for the development of high technology industries. Situated on the eastern edge of the City, Seminole Way is a strategic economic development initiative focused on attracting high value jobs and businesses to Seminole County. The State Road 417 (Central Florida Greenway) corridor defines the boundaries of the Seminole Way district, spanning the length of Seminole County and connecting to both Orange County's "Innovation Way" and the "Medical City" located at Lake Nona. The City has targeted this Greenway Interchange District (GID) for technology industry development complemented by commercial and retail establishments. It is expected to become a premier employment center with professional and high tech office buildings, conference facilities, and hotel rooms. The GID opportunity site is comprised of 26 potential sites with over 378 acres. One of the key features of this opportunity site is the ease of assemblage: it offers the largest consolidation of vacant developable land within the City under the ownership of only 3 land owners.
